Continuation of 11. does NOT place the application in condition for allowance because:

Claim Rejections under 35 USC 101:

In response to the applicant's arguments and amendment regarding to 101 rejection, examiner submits that the amendment to the claims do not overcome the 101 rejection because the steps are not tie to a machine. The steps of: receiving in the exchange system, determining, creating, routing, tracking at the exchange system do not show that the steps are actually performed by the exchange system, the steps may be performed by human at the exchange system. Therefore, the examiner maintains the 101 rejection.

Claim Rejections under 35 USC 103:

In response to the applicant's arguments that Gross does not disclose " tracking bandwidth utilization for the supplier to ensure that the supplier does not provide further incentive data for data services beyond the available bandwidth of the selected supplier ", examiner submits that Gross discloses in paragraphs [0038], [0043], and [0083]-[0085] that the pooling point administrator monitors of the quality of service of delivered bandwidth to ensure that it meets the contracted for terms. Therefore, the examiner maintain the 103 rejection.
